Women in Energy: Power Behind the Play

Victoria Teufel & Madison Bradley

On April 29, 2026, Third Way's Women in Energy brought together women from across the energy sector for **Power Behind the Play** at Audi Field. Guests gathered at the Heineken Rooftop Bar for an evening of food, drinks, and connection while watching the Washington Spirit take on Racing Louisville. The event celebrated women leading both on and off the field and continued the Women in Energy series' work to build a strong, supportive community for women across the energy industry.
