- Roger Stone thinks RFK Jr. "sounds a lot like Donald Trump" and Alex Jones "really supports" him. The Red Team loves his conspiracy spewing and far-right policies.
- Jill Stein was silent, never criticizing Trump or his Supreme Court picks for overturning *Roe v. Wade*. Instead, Stein attacks Biden while Trump brags about ending *Roe*.

- RFK Jr. believes no vaccine is safe and effective; that COVID is targeted to attack Caucasians and Black people,” abortions should be banned at 15 weeks, and that we should roll back abortion pills.
- RFK Jr. says climate is a “cabal” that is “ being used to control us,” opposes restrictions on guns, and has backed a 15-week abortion ban. He’s on Team Red.
- RFK Jr. and Jill Stein claim to be “environmentalists,” but both attack the historic climate law signed by Joe Biden while profiting off fossil fuels. Stein had \$1 million in stocks like Exxon and Chevron and RFK Jr. earned tens of thousands from an oil and gas leases.

- Jill Stein is a Russian asset: she had dinner with Putin, was funded by the Russians in 2016, and spews Russian propaganda about their murderous war in Ukraine.
